SUMMARY

Recent CS graduate (USF, May 2026) with hands-on experience building full-stack web applications from schema to deployment. Six years of operations management that includes designing and shipping internal software used in production. Available immediately.

TECHNICAL SKILLS

Languages	Python, JavaScript, SQL, R, Ruby, C, C++, C#, HTML/CSS
Frameworks	Flask, Ruby on Rails, SQLAlchemy, Chart.js, Leaflet.js
Databases	PostgreSQL, SQLite, MySQL
Tools	Git, REST APIs, Claude API, pdfplumber, Excel

PROJECTS

Histacruise — Full-Stack Cruise Tracking App Python · Flask · SQLAlchemy · Chart.js · Leaflet.js · PostgreSQL

Full-stack web app featuring user auth, interactive maps (Leaflet.js), Chart.js analytics, BLOB photo galleries, a social community layer with follow/reaction/notification systems, and a live data pipeline.

FlakkAi — AI Code Analysis Platform Python · Flask · Claude API · JavaScript

Multi-file code analysis platform supporting 13+ languages — integrates Claude API for real-time bug detection, security scanning, and performance analysis with persistent history.

FlakkOps — Operational Intelligence Dashboard Python · Flask · SQLite · pdfplumber · Pandas

Production-deployed internal tool automating shipment manifest processing and SKU tracking. Reduced manual data processing time by ~80%.

EXPERIENCE

Operations Manager (1st ASM) Jan 2020 – Present

Skechers USA

- Built and deployed FlakkOps, a production web app automating shipment data processing and reporting
- Built scheduling systems to optimize team coverage and labor efficiency
- Analyzed sales data and KPIs to surface trends and drive daily operational decisions

Sales & Office Associate Jan 2017 – Dec 2019

Three Seasons LLC

- Managed inventory, shipment intake, customer database, and digital sales materials

EDUCATION

B.S. Computer Science · University of South Florida · Aug 2022 – May 2026

Coursework: Algorithms, Data Structures, Databases, Software Engineering

Associate in Arts · State College of Florida · Aug 2017 – May 2020 · *Dual enrollment*
