Joshua Cundiff

Software Engineer · Data Analyst · AI Developer · Operations Leader
Hudson, FL · 941-981-2632 · joshuacundiff321@gmail.com · linkedin.com/in/jc137 · github.com/Jaytix1 · jc-portfolio-r63w.onrender.com

SUMMARY

Recent CS graduate with six years of operations leadership and a track record of shipping software that gets used in production. Builds full-stack applications, data pipelines, and AI-powered tools — and brings the business context to know which problems are actually worth solving. Equally comfortable writing code, analyzing data, leading a team, and communicating results to non-technical stakeholders. Available immediately.

TECHNICAL SKILLS

Languages	Python, JavaScript, SQL, R, Ruby, C, C++, C#, HTML/CSS
Frameworks	Flask, Ruby on Rails, SQLAlchemy, Chart.js, Leaflet.js
AI & Data	Claude API, OpenAI API, Scikit-learn, Pandas, NumPy, Matplotlib, Tableau
Databases	PostgreSQL, SQLite, MySQL
Tools	Git, REST APIs, pdfplumber, Excel

PROJECTS

Histacruise — Full-Stack Cruise Tracking App Python · Flask · SQLAlchemy · Chart.js · Leaflet.js · PostgreSQL
Full-stack cruise tracking app with user auth, interactive maps, analytics dashboards, photo galleries, and a social community layer.

FlakkAi — AI Code Analysis Platform Python · Flask · Claude API · JavaScript
AI code analysis platform supporting 13+ languages — bug detection, security scanning, and performance analysis via Claude API.

FlakkOps — Operational Intelligence Dashboard Python · Flask · SQLite · pdfplumber · Pandas
Internal dashboard automating shipment manifest processing and SKU tracking — deployed in production, reduced manual processing by ~80%.

Data & ML Mini-Projects Python · Pandas · NumPy · Scikit-learn · Matplotlib
Customer segmentation and cruise price predictor — trained and benchmarked multiple ML models with feature engineering and cross-validation.

EXPERIENCE

Operations Manager (1st ASM) Jan 2020 – Present
Skechers USA
- Built and deployed FlakkOps, a production web app automating data processing and reporting — used in weekly business reviews
- Led and developed a team of associates, managed scheduling, and optimized labor efficiency across a high-volume retail environment
- Analyzed daily sales data and KPIs to identify trends and drive operational decisions
- Coordinated with vendors, logistics partners, and corporate teams to manage inventory and shipment operations
- Served as primary point of contact for technical issues, system troubleshooting, and staff training on internal tools

Sales & Office Associate Jan 2017 – Dec 2019
Three Seasons LLC
- Managed inventory records, customer database, and appointment scheduling systems

EDUCATION

B.S. Computer Science · University of South Florida · Aug 2022 – May 2026

Coursework: Algorithms, Data Structures, Databases, Software Engineering, Computer Networks

Associate in Arts · State College of Florida · Aug 2017 – May 2020 · *Dual enrollment*

Google Data Analytics · Professional Certificate · Google / Coursera
